

Remuneration policy of Lemanik Asset Management Company S.A.

December 2021

The Management Company has established and applies a remuneration policy and practices that are consistent with, and promote, sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profiles, rules, this Prospectus or the Articles nor impair compliance with the Management Company's obligation to act in the best interest of the Clients (the Remuneration Policy).

The Management Company has established and applies a remuneration policy and practices that are consistent with, and promote, sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profiles, rules, this Prospectus or the Articles nor impair compliance with the Management Company's obligation to act in the best interest of the Clients (the Remuneration Policy).

The Remuneration Policy includes fixed and variable components of salaries and applies to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the Management Company, the Clients or the Sub-Funds.

The Executive Committee is in charge of determining the fixed and variable remunerations of employees. The variable remuneration is granted based on two main criteria: the financial benefit realised at each year end of the management company and the individual's performance.

The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the Clients and the Shareholders and includes measures to avoid conflicts of interest.

The Remuneration Policy is consistent with the integration of 'sustainability risks' within the meaning of, and as required by Regulation (EU) 2019/2088 of November 27, 2019, as amended.

In particular, the Remuneration Policy will ensure that:

- a) the staff engaged in control functions are compensated in accordance with the achievement of the objectives linked to their functions, independently of the performance of the business areas that they control;
- b) the fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component;
- c) the measurement of performance used to calculate variable remuneration components or pools of variable remuneration components includes a comprehensive adjustment mechanism to integrate all relevant types of current and future risks;

In context of delegation, the Remuneration Policy will ensure that the Delegate comply with the following:

a) the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the Company in order to ensure that the assessment process is based on the longer-term performance of the Company and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;

b) if at any point of time, the management of the Company were to account for 50 % or more of the total portfolio managed by the Delegate, at least 50 % of any variable remuneration component will have to consist of Shares, equivalent ownership interests, or share-linked instruments or equivalent non-cash instruments with equally effective incentives as any of the instruments referred to in this item (e); and

c) a substantial portion, and in any event at least 40 % of the variable remuneration component, is deferred over a period which is appropriate in view of the holding period recommended to the Shareholders and is correctly aligned with the nature of the risks of the Company.

A paper copy of the Remuneration Policy is available free of charge to the Shareholders upon request.
