What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Probus Opportunities SA SICAV-FIS, a Sicav-FIS (société d'investissement en capital variable – spécialisé sous forme de société anonyme) under the 2007 Act.

TERM

The Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

OBJECTIVES

The Product's investment objective is long-term growth of capital. In pursuing this objective, the Product invests in a portfolio of collective investment undertakings mainly investing into securities of issuers which have their registered office in, are listed in, or carry out the majority of their economic activities in Greater India region, i.e., India, Pakistan, Bangladesh, Sri Lanka, Nepal and Bhutan. Collective investment undertakings can either be regulated or not and located in the EU as well as outside the EU, in particular, Mauritius. The Product may also directly acquire securities and instruments providing an exposure to the Greater India region.

Please refer to the Propectus for more information about the Sustainable Finance Disclosure Regulation ("SFDR") classification of the Fund.

These shares are capitalisation shares. Income and capital gains are reinvested.

INTENDED RETAIL INVESTORS

The Product is suitable for well-informed investors that look to preserve and grow their wealth, both understanding and are able to bear the investment risks and accept potential losses. In view of the Product's' type of investment strategy, it is designed for investors having long term experience with investments in funds and have a high appetite for risk. The Product is suitable for investors who want to achieve long-term growth of capital and who can afford some losses.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 10 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 15 years. Markets could develop very differently in the future.

| Recommended holding period: Example investment | | 10 years USD 10 000 | | |
|---|---|-----------------------------|-------------------------------|---|
| | | If you exit after 1 year | If you exit after 10 years | |
| Scenarios | | | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | | |
| Stress scenario | What you might get back after costs | USD 3 130 | USD 840 | |
| | Average return each year | -68.7% | -21.9% | |
| Unfavourable scenario | What you might get back after costs | USD 3 830 | USD 7 370 | This type of scenario occurred for an investment in the proxy then the product between April 2010 and April 2020. |
| | Average return each year | -61.7% | -3.0% | |
| Moderate scenario | What you might get back after costs | USD 10 310 | USD 13 250 | This type of scenario occurred for an investment in the proxy then the product between June 2008 and June 2018. |
| | Average return each year | 3.1% | 2.9% | |
| Favourable scenario | What you might get back after costs | USD 22 110 | USD 26 780 | This type of scenario occurred for an investment in the proxy then the product between December 2008 and December 2018. |
| | Average return each year | 121.1% | 10.4% | |

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Probus Opportunities is unable to pay out?

In case of default of the manufacturer of the Product, you may face a financial loss representing your entire investment. To protect you, the assets are held with a separate company, a depository. Should the manufacturer default, the depository would liquidate the investments and distribute the proceeds to the investors.

In case of default of the Alternative Investment Fund Manager, Lemanik Asset Management S.A., this will not have any impact on the manufacturer that will appoint a new Alternative Investment Fund Manager.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does.

The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

| Investment of USD 10 000 | If you exit after 1 year | If you exit after 10 years |
|--------------------------|--------------------------|----------------------------|
| Total costs | USD 832 | USD 5 919 |
| Annual cost impact (*) | 8.3% | 3.9% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.8% before costs and 2.9% after costs.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
| Entry costs | Up to 5.00% of the amount you pay in when entering this Investment. | Up to USD 500 |
| Exit costs | We do not charge an exit fee for this product. | USD 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 2.11% of the value of your investment per year. This is an estimate based on actual costs over the last year. | USD 211 |
| Transaction costs | 1.21% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | USD 121 |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | USD 0 |

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 10 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

Redemptions are possible every Valuation Day (every Friday). All redemption requests must be received in good order by the Registrar and Transfer Agent five (5) Business Day (a full day on which banks are generally open for business in Luxembourg) preceding the relevant Valuation Day. Redemption proceeds shall be paid in the relevant reference currency usually within five (5) Business Days following the relevant Valuation Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
