A Sub-Fund of Probus Investment Fund UCITS

Class AH- USD (ISIN:LU1205058313)

Management Company: Degroof Petercam Asset Services S.A.

Objectives and investment policy

Objectives

The objective of the sub-fund is to achieve long-term capital growth.

Investment policy

This is an actively managed fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark. The selection and weighting of the assets in the sub-fund's portfolio may differ significantly from the composition of the benchmark.

The sub-fund invests primarily in a diversified range of shares issued by companies that are domiciled, or do significant business, in Japan.

The sub-fund can invest in these shares directly or indirectly through other funds ('Underlying Funds') which are consistent with the sub-fund's investment objectives and restrictions.

The sub-fund may use derivative instruments (complex instruments for which the price is dependent on one or more underlying asset) to manage the sub-fund more efficiently, with the aim of reducing risk and minimising costs.

The use of derivatives may multiply the gains or losses made by the sub-fund on a given investment or on its investments generally.

The sub-fund may borrow cash and cash equivalent up to 10% of its assets on a temporary basis.

Benchmark: TOPIX Net Total Return Index

Benchmark purpose:

- Performance fee calculation.

The investor can buy and sell shares on demand each bank business day in Luxembourg being also a business day during which the Tokyo Stock Exchange is open .

The Sub-Fund issues only accumulation shares (shares in which any income earned is added to the share price).
